Dear Dennis,

Once again, you were a success!!! Your presentation "Housekeeping Hotline & More On Floors" to members of Utah Health Care Association at our Annual Convention received rave reviews.

I have enclosed copies of all of the evaluation forms completed by participants who attended your session. The evaluations are all very positive and participants really appreciated the information you supplied. Thank you for taking the extra time and effort necessary to tailor the presentation to meet the specific needs of maintenance and housekeeping personnel in long term care facilities.

It is always a pleasure to work with you. Thank you for again sharing your professional knowledge with our members.

Sincerely yours,

Pat Staples
Executive Assistant
