

I would like to say that it has been a pleasure spending time learning from Dennis Parker. He is a very valuable trainer for Transonic. I can't remember the last time I sat in a classroom for 12 hours a day for three straight days and learned so much.

It is hard for me to explain all of the things I have learned because there are far too many to list. It has been very educational yet fun. Thanks to Dennis. Keep up the good work. If you are ready this, than you have enjoyed his presence just as I have.
