

Dennis Parker's training was very life impacting & dynamic. Not only did he teach me about my career but also about my life & being. Things that I already knew he was able to give me a different way to explain it & also motivated me to keep doing what I was doing well & correctly.

He has perfected his teaching skills & ~~he~~ maintains ones attention, using life applications, metaphors & analogies, stimulate, inspires & engages.

This was a wonderful experience & opportunity. I hope we will be given another opportunity like this in the future. Thank You.

CO Pedro
