

PROVO CITY
SCHOOL
DISTRICT

PHILIP V. LOTT
Director
Transportation Maintenance

January 19, 1989

TO WHOM IT MAY CONCERN:

On November 8, 1989 Dennis Parker of National Sanitary Supply presented a seminar to head custodians of Provo School District pertaining to the custodial supplies offered by his company. It was a very informative and excellent presentation. Dennis did not stop at talking about his company's products but went on to explain the chemical action and PH factor as they pertain to fats and soils. Many custodians commented to me after the seminar that it was the finest presentation they had attended in several years during their tenure at Provo School District.

I could heartily recommend this seminar to any organization dealing in custodial maintenance.

Respectfully yours,

Dr. Philip Lott,
Director of Maintenance
