

Dennis Parker
Class 4-3-08

Dennis held a very effective sales training class for us at CCP ind (new hires). More reserved at first - a non flamboyant presenter - one who intellectually 'grows' on you and draws you in with well polished content backed up with real life experience & knowledge.

I enjoyed his honesty and human perspective - humble.

I will work further into the mental discipline to help me achieve greater results.

This was an inspiring class and will make a difference.
